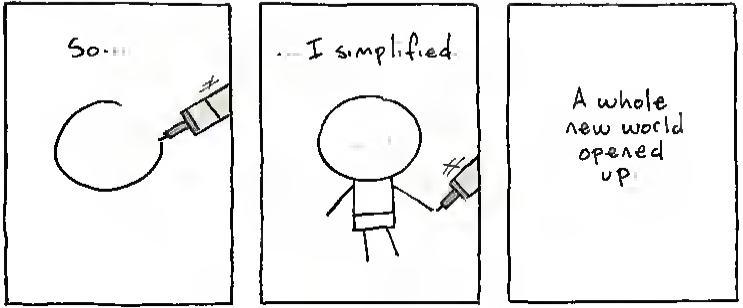
CLUSTER
FUDGE

I've wanted to be a cartoonist since I was a kid.
But my drawings always looked weird
And the harder I pushed

The worse they got
Until a few years back, I hurt my hand
But I still wanted to draw



So...
...I simplified
A whole new world opened up

Suddenly...
I could draw...
...anything

I learned that Pushing isn't always the answer Sometimes, you have to let go.
Like the way you let me go?!
Wobbles?
YOU LEFT ME TO DIE!!

Now I'm gonna...
Ack!
Drop!
My hands are wrong...
I know Wobbles
